or (\$38 Per Month)

With today's busy lifestyles, the last thing you need to worry about is whether or not your HVAC system is working properly.

Cleaning and routine maintenance on your HVAC system is essential in optimizing energy consumption, and insuring a longer life expectancy of your HVAC system investment.

Voss Heating and Air Conditioning cares about your comfort. That's why we offer the 'Voss Comfort Plan.' It provides you with year 'round worry free service for your home or business, by properly maintaining your HVAC system. The Voss Team will notify you twice a year to schedule a convenient time to give your system a check-up. We will also be there for you with our factory-trained technicians, and 24 hour emergency service, should there be a breakdown.

Voss Heating and Air Conditioning knows that every home is as unique as its owner. That's why we offer 3 levels of our 'Comfort Plan.' Whether Silver, Gold, or Platinum, YOU choose which level best suits your lifestyle and budget. All of the plans offer the same attention to detail and service that has allowed us to serve Southern Illinois since 1972.

Voss Heating and Air Conditioning views comfort as a four-part system consisting of temperature control, humidity control, ventilation, and filtration. Rest assured, your comfort is our top priority. If a problem with your heating and air conditioning system should arise, the Voss Team will do whatever it takes to correct the situation.

Voss Heating and Air Conditioning is a second generation, family owned business with over 44 years of experience in making your home or business a comfortable place.

Our employees are professionally trained in all aspects of heating, ventilation, air conditioning, humidity control, and sheet metal fabrication. We also regularly participate in ongoing factory training regarding new equipment, and constantly review proper service techniques and trends.

Note: The above pricing is for residential applications with 1 or 2 functioning HVAC systems. Voss Heating and A.C. Inc. reserves the right to require a system evaluation and repairs before accepting a HVAC system in the Comfort Plan. Commercial applications and homes with 3 or more systems will require an estimate to determine the cost. Comfort Plan clean and checks do not cover costs of air filters (1 filter per system per year IS included in the Platinum package), or any parts needed for repairs or maintenance. Discounted overtime charges are for emergency afterhours or weekend calls only. Non-emergency, routine maintenance, and clean and checks will be done during regular business hours only.

Air is our Business ...  
Comfort is our Goal
